## Confirmation Recycling Salamander bE 73 and bE 82

Dear Sir or Madam,

We hereby confirm that the recycling percentage in the profiles of the Brüggmann bE 73 and bE 82 system is more than 30 %.

On average, the recycling percentage for the main profiles is between 30% and 45%

Please note that not all profiles of the system can be made with recycling material (e.g. glazing beads), but the main profiles are designed as a Coex variant.

For further questions do not hesitate to contact me.

Best Regards

Salamander-Industrie-Produkte GmbH

i. V. Dr. Claus Dörnfeld  
Group Director of Quality Management
